Correction to Substituent Effects on Keto–Enol Equilibria Using NMR Spectroscopy

Kimberly A. Manbeck, Nicholas C. Boaz, Nathaniel C. Bair, Allix M. S. Sanders, and Anderson L. Marsh*

Journal of Chemical Education **2011**, 88, 1444–1445. DOI: 10.1021/ed1010932

The significant figures of the equilibrium constants and uncertainties are incorrect in the first two entries of Table 2 in the

Table 2. Student Results for Experimentally Determined Values of K_c

Compound	K_c (\pm SD)
2,4-Pentanedione	5.1 ± 0.7
3-Methyl-2,4-pentanedione	0.65 ± 0.12
3-Chloro-2,4-pentanedione	13 ± 2

article. The appropriate corrections have been made based on accepted guidelines,¹ and the revised table is included here.
